

Body Storage

Body Storage / Mortuary Racking

The ParMED range of Stainless Steel Racking is unique in its ease of usability and functionality, while having proven to stand the test of time. Some of the advantages of this type of system are:

- Stainless Steel Tube construction for durability in extreme conditions
- Stub Nylon Rollers that provide extremely smooth operation, while facilitating easy access for cleaning of the area
- Customisable Tier Heights
- Can be built to accommodate varying size Trays
- Light weight and easy to install

Coffin Racking

Our coffin racking provides for an optimum use of storage space available. Some key features are:

- Stainless Steel Tube construction for durability.
- Full length Nylon Rollers that provide extremely smooth operation.
- Customisable Tier Heights and Widths

- Light weight and easy to install
