

Mortuary Trolley

Mortuary Trolley

One of our long established products, this style of Mortuary trolley has been designed to suit operations in a busy Hospital Mortuary situation. Its features include:

- Stainless Steel Tubular construction for durability and light weight
- Heavy Duty Stainless Steel castors
- Fully integrated with ParMED tray system
- Full Length rollers for easy tray transfer
- Suit varying size trays on the same trolley

- Single handed positive tray locking mechanism
- Designed for use as a Post Mortem / Forensic station, with well designed tilt and anti-roll features
