

Autopsy Room

Autopsy Room Design

Some of our greatest expertise lies in the area of Autopsy Room design. There are so many variables to choose from. Some of the common design variables are:

Benches :

Extraction or Standard

Linear or Downdraft Extraction

Wallmounted / Floor Mounted

Sinks:

Size / Docking / Seperable

Tables

Mobile or Fixed

Height adjustable or Fixed Height

Extracted or Standard

Infill Benching can be designed to suit your workplace requirements. As custom designs are our speciality, we work with all stakeholders - clinical, project and facilities management, to ensure that our products meets the most stringent of expectations.
